

To whom it may concern, I like the XM Radio Station and I like the services they provide. Please don't take away the rights of the people. The press produces harsher speculations and air what they want us to hear. With the Weather and Traffic Updates through XM, they keep us informed as to what is actually going on at the time. I urge the FCC to reject the NAB's petition 04-160 because it will take away from what the people want to know. Actual events that are happening in their area. I travel around a bunch and it is great knowing what the traffic and weather in the Texas Metraplois Areas are doing. Don't take away a service that I (we, the XM customers) are paying for and wanting. Thank you for your time.

Sincerely,  
David Arnold
